## Experience

**Abdulaziz Al Raqtan Company (SMC-Private) Limited KSA** Karachi, Pakistan (Remote Collaboration with KSA)  
**Senior Full Stack Developer** 01/2021 - Present

A leading Saudi Arabian company providing end-to-end food service solutions and digital platforms for the F&B sector.

- Built and maintained React.js applications integrated with Laravel 9 and Inertia.js, improving UI responsiveness and page load time by 30%.
- Developed RESTful APIs and microservices using Laravel and Node.js, improving scalability and reducing latency by 25%.
- Integrated Microsoft D365 for automated invoicing and shipment workflows, enhancing accounting efficiency by 20%.
- Improved search accuracy by 35% by refining Algolia search rules and implementing UAE-region filters for better customer experience.
- Implemented AI-driven automation using OpenAI API, Perplexity API, and Prompt Engineering, reducing manual data entry by 40%.
- Led migration of Ekuep.com from PrestaShop to Laravel 5.8, integrating multiple payment gateways (Stripe, Checkout, Apple Pay) for KSA and UAE transactions.
- Delivered interactive React dashboards and Inertia.js components for Production Planner and Customer Portal applications.
- Mentored junior developers, improved code quality, and facilitated Agile sprints via JIRA and Monday.com.
- Contributed to cloud-based deployment workflows and server optimization across AWS and DigitalOcean environments.

**Abdulaziz Al Raqtan Company (SMC-Private) Limited KSA** Karachi, Pakistan (Remote Collaboration with KSA)  
**Senior PHP Developer** 10/2018 - 12/2020

A leading Saudi Arabian company providing end-to-end food service solutions and digital platforms for the F&B sector.

- Developed and maintained Laravel web applications and internal enterprise tools used across KSA operations.
- Managed deployments on Linux servers using Git-based CI workflows and Dockerized environments.
- Delivered responsive and accessible UIs across multiple devices and browsers, enhancing UX for regional clients.

**Cygnis** Karachi, Pakistan  
**PHP Developer** 07/2016 - 09/2018

A software development company focused on building robust applications

- Built scalable Laravel apps and integrated Google APIs for location-based services
- Designed secure RESTful APIs for document sharing and user access control
- Participated in Agile Scrum sprints, ensuring continuous integration and code quality
